

2021 Demonstration Schedule for Ottawa Valley Woodturners.

Here is our schedule for the remainder of 2021. It is unclear when live meetings will be possible again, but the last three remote demonstrations in October – December can also be given live if our Confed venue should re-open in the late Fall. All meetings begin at 7pm. Put these events on your calendar now.

JUNE 8th

Off-centre Peppermills with KAI MUENZER

Kai is a Calgary wood artist. His website is at <https://kaimuenzer.com/> He will demonstrate his peppermills with off-centre handles. We will be joined by the Grey-Bruce and Simcoe clubs for this demo.

SEPTEMBER 22nd

Skew Skills with ERIC LOFSTROM

Eric is returning after his outstanding Namaste bowl presentation in March. The topic is his Skew Skills: Making the Cuts! A summary of this is on his website at <https://www.ericlofstrom.com/resources-demos-instruction> as a download. He will cover the six basic skew cuts, and also how to avoid catches with the use of this very versatile tool. Woodturners from beginner to expert will all profit from this demonstration. We will be joined by several clubs for this one also. ***NOTE the date change – the fourth Wednesday in September.***

OCTOBER 12th

Adventures in Piercing with MALCOLM ZANDER

Malcolm will be presenting all-new material, showing the construction and piercing of several works, including their airbrushing, gilding, repair and even shipping, with slides and video, covering also equipment and lathe indexing. His website is at <https://malcolmzander.com/> A copy of his April 2018 American Woodturner article on piercing will be provided.

NOVEMBER 9th

Stave Christmas Ornament with CARL DURANCE

From the Grey-Bruce guild, Carl will show the making of his sweet little stave-constructed Christmas ornaments, just in time for you to make one for your Christmas tree. We will have a show-and-tell session in December as a follow-up and you can show us one of these or any other Christmas ornament you have made.

DECEMBER 14th

Lathe, Chuck and Tool maintenance with BART POULTER

Essential stuff which we all need to know, from our very own expert Bart. If you have never taken your chuck apart and cleaned it you don't know how much more smoothly it will operate until Bart shows you. All the tricks you need to keep your lathe and tools in tip-top condition.
